Chilling Sci-Fi Novel Pits Little Girl Against Evil Force

Something evil is happening in a small Nevada town that defies understanding. *The Mausoleum* is a chilling thriller that goes beyond scary.

Famed horror novelist Brian Genderson has run out of ideas for his next novel. He returns to his tiny hometown in northeastern Nevada to tap into the horrors of his childhood, which should give him plenty of book plots. The night he arrives, Brian dreams of a little girl he last saw when he was seven years old. The following day, Brian meets an old friend named Tiffany, and discovers that her six-year-old daughter, Annie, also saw the same little girl on almost the same day.

Brian tells them both the story of his past, and when he first saw the little girl, Claire. The next night finds Brian and Annie battling the dead for Tiffany's life. What exactly is happening in this small Nevada town? If you've ever wondered where novelists get their ideas, don't ask!
