What Needs to Be Done to Get the UK Out of the EU?

Political Commentary Is Also 'A Guide to Running the Country'

Let's Get Out of the EU: A Guide to Running the Country takes a humorous look at the current situation in Europe. Although the book is political satire, in reality, about 90 percent of the population in Great Britain wants to get out of the European Union.

The people of the UK are fed up with the dictates of the EU in Brussels. They want out, and might need a new prime minister to do it. Read examples of how you could run the country; recognise the problems facing Great Britain; and look at the ridiculous directives the UK is supposed to follow. By examining the situation from A to Z, see what a difference you could make.

Breaking up is hard to do! This incisive book highlights the problems we face and tells us how to do better. Meanwhile, *Let's Get Out!*
