The Universe Depends on Three Orbs in the First Book of Fantasy Series

Three orbs sustain life in the universe. They contain the three forces within the Maker's innate self, which are Omnipresence, Omniscience, and Omnipotence. Upon discovering that the Demon attempted to steal the Orb of Omnipresence, the Archangel fights with him, making the Orb fracture and explode.

During their struggle, the orb's fragments scatter between Earth and the realm of Dyrge'Or – two worlds existing without knowledge of the other – causing both dimensions to merge and fight for space, and the shards to latch on to the mortals below. On an ordinary day in his native Toronto, Kyle Drummond is struck by a terrifying lightning bolt. He awakens in a strange place, surrounded by the Archangel and a woman from an unknown land. Kyle realizes that what he knows about himself is incomplete; he now seeks his true destiny.

Freija, from Dyrge'Or, finds love with Kyle, but if they find the missing shards of the orb, they will be separated forever. *Omnipresence: The Rise of the*
