NEW VACCINE COULD CHANGE THE FACE OF THE WORLD IN THIS SCI-FI ADVENTURE

Strategic Book Publishing & Rights Agency is pleased to announce the release of its newest title, *The Divergence Conspiracy*, by author Keith Bottin.

About the Book

What if a vaccine could be engineered to make a super race? In the high-tech sci-fi novel *The Divergence Conspiracy*, just such a plot is hatched.

The scheme is uncovered when a CIA agent following the trail of billions of dollars in foreign holdings becomes suspicious of the elderly Hong Kong businessman involved in the deal. He learns the money is tied to flu research being done at Shanghai Genomics, and from there the action soars. After the agent discovers former scientists at the research center have mysteriously died, he steps up the investigation and retrieves a sample of the flu vaccine. It turns out that genes produced in the project would make the Chinese a super race. Leaders from China and the U.S. debate which steps to take.

With the vaccine stored on a refrigerated ship in international waters, all sides must determine the best way to destroy it. Are neutron bombs the answer, or is there a simpler way to defuse the situation?

About the Author

Keith Bottin is retired and lives in Toronto. This is his first book and the first in a series.
