**Profound Novel Asks:  
What Is the Purpose of Life?**

Two friends assess the meaning of life as they pass through four phases of their lives. Nelson is a genius destined for a big future, while Kevin is a quiet and average guy who largely moves through life under the radar.

At the age of 11, the boys begin to question the existence of life on other planets. The second phase comes at age 21, when Kevin is in love and ponders the existence of soul mates. At age 51, Kevin is dealt a cruel blow that leads him to ask about life after death, while Nelson's life has sent him down an unexpected path. In the final phase of life at age 81, both no longer have any doubt about their theories.

Have you ever wondered about life on other planets? The existence of soul mates? What happens after death? Our purpose in life, our reason for being, and our place in the cosmos? *Solving Mysteries* takes us from the cusp of religion to philosophy and back.

**About the Author:** Born in Calcutta, Vishal Hemrajani was raised in Hong Kong. His inspiration for the book: "At some point in our journey of life we stop to ask about our purpose of life, or rather what is THE ultimate purpose of life? This question came to me at the age of 11, and ever since then I took it as a quest to discover and solve the mystery of life. When I realized the great mystery, I wanted to share it with the world."
